

Lidget Green Play Policy

1. Commitment

Our school undertakes to refer to this play policy in all decisions that affect children's play. Our school is committed to providing the strategic and operational leadership needed to provide and maintain quality play provision for all of our children.

2. Rationale

Our school believes that all children need opportunities to play that allow them to explore, manipulate, experience and affect their environment. We believe play provision should be welcoming and accessible to every child, irrespective of gender, sexual orientation, economic or social circumstances, ethnic or cultural background or origin, or individual abilities.

The OPAL Primary Programme rationale is that *"... better, more active and creative playtimes can mean happier and healthier children, and having happier, healthier, more active children usually results in a more positive attitude to learning in school, with more effective classroom lessons, less staff time spent resolving unnecessary behavioural problems, fewer playtime accidents, happier staff and a healthier attitude to life."*

Our school vision is 'Learning Together in our inclusive family' and our three school values are **'Inclusion, Nurture and Respect'**.

3. Definition and value of play

Play is defined as a process that is intrinsically motivated, directed by the child and freely chosen by the child. Play has its own value and provides its own purpose. It may or may not involve equipment or other people.

We believe play has many benefits, including:

- Play is critical to children's health and wellbeing, and essential for their physical, emotional, social, spiritual and intellectual development.
- Play enables children to explore the physical and social environment, as well as different concepts and ideas.
- Play enhances children's self-esteem and their understanding of others through freely chosen social interactions, within peer groups, with individuals, and within groups of different ages, abilities, interests, genders, ethnicities and cultures.
- Play requires ongoing communication and negotiation skills, enabling children to develop a balance between their right to act freely and their responsibilities to others.

Lidget Green Play Policy

- Play enables children to experience a wide range of emotions and develop their ability to cope with these, including sadness and happiness, rejection and acceptance, frustration and achievement, boredom and fascination, fear and confidence.
- Play encourages self-confidence and the ability to make choices, problem solve and to be creative.
- Play maintains children's openness to learning, develops their capabilities and allows them to push the boundaries of what they can achieve.
- Play enriches children's learning opportunities and doing this in school provides them with them chance to safely experience self-directed learning outdoors which the modern world makes difficult outside of school.

4. Aims

In relation to play our school aims to:

- Ensure play settings provide a varied, challenging and stimulating environment.
- Allow children to take risks and use a common-sense approach to the management of these risks and their benefits.
- Provide opportunities for children to develop their relationships with each other.
- Enable children to develop respect for their surroundings and each other.
- Aid children's physical, emotional, social, spiritual and intellectual development.
- Provide a range of environments that will encourage children to explore and play imaginatively.
- Provide a range of environments that will support children's learning across the curriculum and learning about the world around them.
- Promote independence and teamwork within children.
- Build emotional and physical resilience.
- Build children's self-confidence and self-esteem by giving them opportunities to overcome their own challenges.

The Lidget Green Culture

Everyone in our school community strives to ensure that;

- Our children are happy, healthy and safe.
- Our curriculum is meaningful, exciting and memorable.
- We develop positive relationships based on mutual respect and value diversity.
- We nurture and support our pupils and staff and have a whole school commitment to positive mental health and wellbeing.

Lidget Green Play Policy

- We are fully inclusive and remove barriers to learning so that all pupils can achieve their best and become lifelong learners.
- We work in close partnership with parents and carers to improve outcomes.

5. Rights

Our school recognises the UN Convention on the Rights of the Child, which includes *the right to play, recreation and leisure* (Article 31) and the *right of children to be listened to on matters important to them* (Article 12). We acknowledge that we have a duty to take these rights seriously and listen to children's views on their play.

We recognise children's rights under the equality act and their right to set their own boundaries in play and explore their own experiences.

6. Benefit and risk

'Play is great for children's wellbeing and development. When planning and providing play opportunities, the goal is not to eliminate risk, but to weigh up the risks and benefits. No child will learn about risk if they are wrapped in cotton wool.'

Managing Risk in Play Provision: An Implementation Guide (Play Safety Forum, 2012)

The school will use the Health and Safety Executive guidance document *Children's Play and Leisure – Promoting a Balanced Approach* (September 2012) as the principal value statement informing its approach to managing risk in play. In doing so, the school will adopt a risk-benefit approach as detailed in *Managing Risk in Play Provision: An Implementation Guide* (Play Safety Forum, 2012).

Risk-taking is an essential feature of play provision and of all environments in which children legitimately spend time at play. Play provision aims to offer children the chance to encounter acceptable risks as part of a stimulating, challenging and managed play environment. As outlined in the play sector publication 'Best Play', play provision should aim to *'manage the balance between the need to offer risk and the need to keep children and young people safe from harm'*.

In addition to standard risk-benefit assessments the school will practise dynamic risk management with children, encouraging them to identify and manage risks in an environment where adults are present to support them.

Lidget Green Play Policy

7. Supervision

The law requires that children in school have supervision but for primary school playtimes there are no stated ratios. During the school day there should be one or more adults present outdoors. The school recognises OPAL's three models of supervision: Direct, Remote and Ranging. Except for new children in reception, whose skills and orientation in the school environment need to be assessed, the school does not believe direct supervision is possible or beneficial. Supervisors will use ranging and remote supervision models, so that children can quickly find an adult and adults can patrol large sites to gain an awareness of the kinds of play and levels of risk likely to be emerging.

In our school, staff will be assigned a specific role outside (see attached map) and will either roam a designated zone or stay in a specific location and supervise a given activity.

8. The adult's role in play

The school will help children maximise the benefits they can gain from play by the provision of trained staff who are informed by and work in accordance with the Playwork Principles. Staff will use and refer to these principles when appropriate interventions are needed, and ultimately will strive for facilitating an environment that nurtures children's self-directed play.

The playworker's core function is to create an environment that will stimulate children's play and maximise their opportunities for a wide range of play experiences. A skilled and experienced playworker is capable of enriching the child's play experience both in terms of the design and resources of the physical environment and in terms of the attitudes and culture fostered within the play setting. Playworkers are a channel of access to new materials and tools and they can act as a stimulus to children to explore and learn. They are also available to participate in the play if invited.

Our policy at Lidget at Lidget Green is that we have a robust approach to playing outside, whatever the weather. All staff are aware that pupils go out whatever the weather and there is a process for staff to follow if the weather is torrential or windy so pupils cannot go outside. All staff are expected to wear suitable footwear and clothing for being outdoors.

9. Equality and diversity

Through providing a rich play offer meeting every child's needs we will ensure all children, regardless of age, gender, race, disability or other special needs, can develop and thrive, build strong relationships and enjoy school.

Lidget Green Play Policy

10. Environment

We believe that a rich play setting should ensure that all children have access to stimulating environments that are free from unacceptable or unnecessary risks and thereby offer children the opportunity to explore for themselves through their freely chosen play.

We will strive to continually improve the quality and diversity of our school's grounds to enhance play. We will use the document 'Best Play' to guide us on what a quality play environment should contain. www.freeplaynetwork.org.uk/pubs/bestplay.pdf

11. Why Outdoor Play Matters at Lidget Green

Children who play outdoors move more, sleep more, eat better, are happier and care about the planet more. At Lidget Green Primary School, we recognise that outdoor play isn't just fun – it's essential for your child's development and wellbeing.

What Does Outdoor Play Do for Your Child?

When children play outdoors at Lidget Green, they experience benefits across every area of their development:

Physical Health & Wellbeing

- They're really active
- They sleep better
- They're sick less often
- They learn how their body moves and where it ends

Social & Emotional Development

- They make friends and build deeper friendships

Lidget Green Play Policy

- They learn to trust themselves and feel trusted by adults
- They build grit and resilience
- They fall... and they get up
- They're happy

Learning & Creativity

- They explore and experiment
- They work out their problems
- They try out 'real life' scenarios
- They have lots to talk about
- They learn about nature and learn to care for the planet

Behaviour & Concentration

Children in OPAL schools make deeper friendships, concentrate and behave better in class, and have less time off school due to illness.

Our Commitment as an OPAL School

As part of the OPAL Primary Programme, we have introduced;

- More space to play
- More stuff to play with
- A risk-benefit approach so children are safe to take the risks they need
- Training for the staff that look after children's play

This means your child will have access to exciting play opportunities including den-making, mud kitchens, outdoor chalking, and much more – all designed to support their natural curiosity and love of play.
